

Fruit and Nut Nurseries Catalogue and Price List March 2018

General information

Prices

Except where special offers apply, the prices in this catalogue will remain in effect until 31st March 2018. Details of special offers can be found on the website.

Planting Season

The best time to plant is often either at the very start of the barerooted season, when the ground is still relatively warm and dry, or at the end of the planting season, namely during the second half of March and the first part of April when the ground is beginning to warm up and dry out. Providing trees are well watered at the time of planting, barerooted planting of apples and most nut species can continue further into April (and even into early May in a cold year). During the period December through till late February planting-out should be avoided during times when the ground is either frozen or waterlogged. Planting during wet ground conditions nearly always leads to soil compaction, which in turn can adversely affect tree growth for many years. If ground conditions are not favourable for planting, trees can be stored in an unheated but frost-free shed until conditions improve. Provided the trees are still dormant and the roots are kept moist, trees can be stored for up to several months. However it is essential that roots are not allowed to dry out. Alternatively, trees can temporarily lined-out into a prepared bed (or an unused part of the vegetable garden) then replanted into their final position when ground conditions improve. At the nursery, more than 95 percent of all barerooted planting takes place **after** 17th March.

Ordering

Many popular items sell out well in advance and for these items early ordering is essential. Items that typically sell out early include: sweet chestnuts, heartnuts, buartnuts, hickories, hicans, cider apples, perry pears, apricots, peaches and cherries, and also most fruit fruitstocks used for grafting purposes. It is recommended to order these items as early as possible, ideally well before the barerooted season begins. Once a customer confirms an order by email, we will provisionally reserve the items pending payment. We require a 50 percent deposit (full payment where the order value is under €200) to firm up the order. Where payment does not reach us within a reasonable time (7 working days unless otherwise stated), we reserve the right to re-allocate the stock to other customers.

Minimum Order Value on Despatched Orders (excluding delivery charges)		
	Trees	Rootstocks
Ireland	100.00	75.00
Northern Ireland	150.00	100.00
Rest of UK	200.00	150.00
EU	250.00	200.00
EEA	500.00	400.00

Despatch

Unless we are instructed otherwise, despatch will normally take place from mid February onwards, in chronological order based on when payment for the order was received. Please note that trees that are supplied to us from wholesalers outside of Ireland do not always reach us until the middle of February (and occasionally later). Ground and weather conditions permitting, trees that we propagate or grow on at the nursery can be sometimes be supplied before Christmas. **For orders placed after the main despatch season begins, please allow a lead time of 2-3 weeks.** Normally the despatch season ends when the last barerooted trees come into leaf or flower (mid/late April) but may be continued at our discretion after discussion with the customer.

Packing and Delivery Charges

These are based on typical postage or freight charges, with an allowance for labour and packaging costs. We go to a lot of trouble with packing: tree roots are soaked prior to packing then wrapped in paper and polythene to prevent drying out. We frequently receive emails from customers complimenting us on our thoroughness and on the good condition of stock when it arrives. In ten years of operation we have had only one complaint of trees damaged in transit. The delivery charges for fruit and nut trees and for rootstocks are calculated from the number of trees, while for hedging and woodland trees the cost is based on a percentage of the order value. Where orders include items from all three categories of tree (fruit and nut trees, rootstocks, and woodland/hedging trees), the delivery charge will be calculated on the total order value - please contact us for a exact quote.

Collection

Goods can be collected directly from the nursery by prior arrangement. Subject to availability, barerooted trees can be collected from late November to early April while container-grown stock can be collected all year round. We sometimes offer a discount on the larger collected orders - it saves on time spent packing and despatch - please enquire. Most container-grown stock and larger barerooted items are for collection only. **Please note we are not a garden centre and cannot facilitate casual callers at any time.**

Tree Quality and Customer Guarantee

Customer satisfaction is very important to us. We often hear stories from customers who have purchased poor quality trees from other sources. **Fruit and Nut policy is to NEVER supply goods of a standard that we would not like to receive ourselves.** Trees are inspected at the point of lifting and again at the point of packing. It is very rare for a defective item to slip through, but **should some delivered item not live up to expectation, we will normally replace or refund without question.** In the case of bulk sales (anything over a few dozen of any one item), nursery policy is to supply a small number of extra plants/trees free of charge. Where orders are collected, trees are normally supplied tied in bundles and are not wrapped until the customer has had chance to inspect.

Contact

The best way to get in touch is by email. Except at particularly busy times, replies will normally be within one working day. If you have not heard back from us within three working days, please send a reminder! Owing to the sheer volume of phone calls we generally DO NOT return voicemail messages, except where these concern orders already in transit or ones ready for despatch. However, we endeavour to reply to all text messages. We offer a free horticultural advice service by email.

Fruit and Nut Order Form March 2018

Nuts

Chestnuts Varieties (barerooted): Marlhac, Marigoule, Marsol **Please enquire to check availability** Bouche de Betizac, Bournette, Marron de Chevanceaux, Précoce Migoule **Not available 2017/18**

List varieties, quantity of each variety, and total price

Walnuts Available as grafted trees 45-70cm, 70-100cm, 100-140cm, 140-180cm and 180cm+

French varieties (barerooted): Corne du Périgord, Fernette, Fernor, Fertignac, Franquette, Mayette, Meylanaise, Parisienne, Ronde de Montignac. **Available from November** Other varieties (barerooted): Amphyon, Chiara, Cyril, Coenen, Dionym, Mars, No.16, Minimultiflora nr. 14, Rita, Rote Danaunuss. **Please enquire to check availability**

List varieties, quantity of each variety, and total price

Cobnuts Available as stooled trees

Barerooted 40-60cm: Cosford, Kentish Cob, Hall's Giant, Nottingham (Pearson's Prolific), Webb's Prize **Available by special order only**. Barerooted 60-100cm, 100-140cm, 140-180cm, 180-220cm and 220cm+; Cosford, Hall's Giant, Nottingham (Pearson's Prolific), Webb's Prize, Rotblättrige Zellernuss **Available from November**

List varieties, quantity of each variety and total price

Heartnuts, Buartnuts, Hickory and Hican Available as grafted trees 45-70cm, 70-100cm, 100-140cm, 140-180cm. Varieties available Heartnuts: Campbell CW1, Campbell CW4, Grimo Manchurian, Imshu, Kalmar, Schubert; Buartnuts: Mitchell; Hickory: Yoder; Hicans: Burton, Weschke **Available from November (Buartnuts sold out)**

List varieties, size of tree, quantity of each variety and total price

Almonds Available as grafted trees on St Julien A rootstock. Supplied as barerooted maidens or 2yr trees

Variety: Ingrid. **Please enquire regarding availability**

List quantity and total price

Pine Nut and Monkey Puzzle (*Pinus cembra* - Swiss Stone pine, *Pinus pinea* - Mediterrean Stone pine, *Pinus coulteri* - Coulter pine, *Pinus gerardiana* - Chilgoza pine, *Pinus monophylla* - Piñon pine, *Pinus pumila* - Dwarf Siberian pine, *Pinus sabiniana* - Digger Pine, *Pinus siberica* - Siberian pine, *Araucaria araucana* - Monkey Puzzle. Available in a range of sizes from plugs/P9 to 45Lairpots. **Normally available all year round**

List quantity, pot size/age and total price

Oaks *Quercus ilex* - Holm Oak, *Quercus suber* - Cork Oak. Available in 1l, 3l and 9l airpots. **Available all year round**

List quantity, pot size/age and total price

Tree Fruit

Plums, Gages, Damsons, Bullaces and Mirabelles on St Julien 'A' (semi-vigorous) and Pixy (semi-dwarf) rootstock. Barerooted maidens and 2yr bush-trained.

Plums and gages: Avalon, Blaisdon Red, Cambridge Gage, Coe's Golden Drop, Czar, Denniston's Gage, Edda, Gordon Castle, Guinevere, Haganta, Herman, Jubilee, Kirke's Blue, Marjorie's Seedling, Opal, Reine Claude de Bavay, Rivers' Early Prolific, Stella's Star, Warwickshire Drooper. **Damsons:** Aylesbury, Blue Violet, Delma, Farleigh, Shropshire Prune **Bullace:** Shepherds **Mirabeles:** Countess, de Nancy, Golden Sphere, Gypsy, Ruby. **Please enquire regarding availability**

List varieties, quantity of each variety, and total price

Apples on M25/M111 (vigorous), MM106 /M116 (semi-vigorous). M26 (semi dwarf). M9 (dwarf) and M27 (ultra dwarf) rootstocks. Barerooted trees available as maidens, 2yr cordons, 2yr bush trained, 2yr straight leads and half-standards.

Varieties (eaters and cookers): Annie Elizabeth, Ashmead's Kernel, Bardsey, Beauty of Bath, Ben's Red, Bramley's Seedling, Bright Future, Brownlees Russet, Charles Ross, Cornish Aromatic, Coul Blush, Court of Wick, Court Pendu Plat, Crawley Beauty, D'Arcy Spice, Discovery, Egremont Russet, Edward VII, Fiesta, Gladstone, Gennet Moyle, Greensleeves, Grenadier, Herefordshire Russet, Honeycrisp, John Standish, Katy, Keswick Codlin, Lane's Prince Albert, Laxton's Superb, Lemon Pippin, Little Pax, Newton Wonder, Oslin, Pinova, Pitmaston Pineapple, Red Devil, Red Jonaprince, Red Falstaff, Redsleeves, Red Pixie, Red Windsor, Rev W. Wilks, Ribston Pippin, Rosemary Russet, Rosette, St Edmund's Russet, Sunset, Surprise, Ticked Pink, Tom Putt, Yellow Ingestrie. **Varieties (cider):** Black Dabinett, Brown's, Dabinett, Harry Masters, Medaille d'Or, Morgan's Sweet, Somerset Redstreak, Sweet Allford, Sweet Coppin, Tremlett's Bitter, Yarlington Mill. **Please enquire regarding availability**

List varieties, rootstock, quantity of each variety, and total price

Cherries barerooted on F.12.1 (vigorous) Colt (semi-dwarf) and Gisela 5 (dwarf) rootstock. Available as maidens and 2yr

Varieties: Black Oliver, Celeste, Colney,, Early Rivers, Lapins Cherokee, Merton Glory, Morello, Noir de Guben, Penny, Petit Noir, Skeena, Stella, Summer Sun, Sweetheart, Van, Vega **Please enquire regarding availability**

List varieties, quantity of each variety, and total price

Pears on Pyrus communis/kirchensaller (very vigorous), Pyrodwarf (vigorous), Quince A (semi-dwarf) and Quince C (dwarf) rootstock. Barerooted trees available as maidens and 2yr.

Varieties: Baronne de Mello, Beth, Beurré Hardy, Black Worcester, Catillac, Concorde, Conference, Durondeau, Fondante d'Automne, Invincible, Jargonelle, Louise Bon of Jersey, Merton Pride, Onward, Précoce de Trévoux, Shipover. **Perry Pears:** Blakeney Red, Gin, Hendre Huffcap. Judge Amphlet, Thorn, Winal's Longton, Yellow Huffcap **Please enquire regarding availability**

List varieties, quantity of each variety, and total price

Tree Fruit continued

Crab Apples

Variety: Laura Supplied as barerooted maidens **Please enquire to check availability**

List quantity and total price

Cornelian Cherry

Varieties: Jolico, Schönbrunner Gourmet Dirndl. Barerooted trees 2&3yr **Available from December**

Cornus Kousa chinensis (**Chinese dogwood**) Barerooted trees. **Available from December**

List varieties, quantity of each variety, and total price

Quince on Quince A (semi-vigorous) rootstock. Supplied as barerooted maidens and 2yr.

Varieties: Aromatnaya, Vranja, Serbian Gold. **Please enquire regarding availability**

List varieties, quantity of each variety, and total price

Medlars on Quince A (semi-vigorous) rootstock. Supplied as barerooted maidens, 2yr and 3yr

Varieties: Nottingham, Royal **Available from December**

List varieties, quantity of each variety, and total price

Apricots, Peaches, Nectarines and Plumcot on St Julien A/Torinel rootstock. Supplied as barerooted maidens and 2 yr . **Varieties:** **Apricot** Goldcot, Golden Glow, Tomcot, Vigama. **Peach** Rochester, Saturn; **Nectarine** Pineapple; **Plumcot** Flavor King; **Miracot** Aprimira **Please enquire regarding availability**

List varieties, quantity of each variety, and total price

Mulberries Containerised trees in 12L pots.

Variety: Chelsea **Sold out for 2018**

List quantity and total price

Bush Fruit

Sea Buckthorn

Container-grown plants P9 pots (20-40cm high), 3l pots (40-60cm) and 7l pots (60-100cm) Male: Pollmix1, Pollmix 3, Pollmix 4. **Please enquire re availability** Barerooted named female varieties **Please enquire re availability** Barerooted seed-grown plants for hedging and screening (mixed male and female) 60-100cm, 100-140cm, 140-180cm **Please enquire re availability** (see hedging price list)

List varieties, quantity of each variety, and total price

Aronia

Nero, Viking: P9s, 2.5L, 5L, 7L and 12L pots **Normally in stock all year round**

Galicjanja: barerooted plants **Sold out**

List varieties, quantity of each variety, and total price

Blueberries

Bluecrop, Rubel and some other varieties. Available in P9 and 2.5L pots

Sold out, more available February (order now)

List variety, quantity and total price

Ground-cover raspberries

Rubus Betty Ashburner, P9s and 2.5L pots **Normally in stock**. *R. pentalabus* 1.3L and 3L pots **Normally in stock**
R.chamaemorus, *R.illicebrosus*, *R. nepalensis*. **Limited availability, please enquire**

¹ A given variety will be pollinated by another variety of the same or adjacent pollinating group. All self fertile varieties will crop better when there is an additional pollinator of the same or adjacent pollinating group. Triploids will not pollinate other varieties. Varieties not compatible with dwarfing quince rootstock are grafted onto Pyrodwarf (in spite of the name a vigorous rootstock), or onto the very vigorous *Pyrus Kirchensaller* or *Pyrus communis* rootstocks. *Pyrus Kirchensaller* is an improved form of *Pyrus communis*.

¹ A given variety will be pollinated by another variety of the same or adjacent pollinating group. All self fertile varieties will crop better when there is an additional pollinator of the same or adjacent pollinating group. In most cases good cross-pollination occurs between plums, gages, mirabelles, damsons and bullaces providing they are in the same or adjacent pollinating group.

Notes							
<p>¹ Dwarf varieties tend to be weak growing and are best grown on Colt or Gisela 6 semi-dwarf rootstock. Compact varieties are good on Colt, Gisela 6 or the dwarfing rootstock Gisela 5. Unless large trees are required, other varieties are best grown on Gisela 5 rootstock.</p> <p>² Most self fertile varieties are good pollinators. The variety Penny is regarded as partially self fertile. Non self fertile varieties will be pollinated by a different variety of the same or adjacent pollinating group. For example, Vega (group 2) will be pollinated by any variety in pollination groups 1,2, or 3.</p> <p>³ There is considerable variation in the split resistance of the fruit of any given variety. The most influential factors are the weather, the local micro-climate and soil moisture levels. Generally however, cherries are much more prone to splitting when the weather is wet during the ripening period.</p> <p>⁴ Canker resistance varies a lot according to local environment and micro-climate. Well-ventilated and well-drained sites, where the humidity level around the trees tends to be lower, tend to suffer less from canker. The area immediately around the trees should be kept free from vegetation.</p>

Willow, Goat (<i>Salix caprea</i>) 1+0 60-100cm	n/a	n/a	1.69	1.30	1.00
Willow, Grey (<i>Salix cinera</i>) 1+0 60-100cm	n/a	n/a	1.69	1.30	1.00
Willow, Creeping (<i>Salix repens</i>) 1+1 60-100cm	n/a	n/a	2.28	1.82	1.40

Key: The first set of numbers refer to the number of years grown prior to transplanting, plus the number of additional years grown on, if any. For example, 2+1 indicates two years plus an additional year after transplanting. Usually roots are pruned at the time of transplanting (this reduces subsequent root damage when the trees are planted out into their final location). The second set of numbers refers to the height.

Woodland Hedging and Shelterbelt Tree Price List March 2018

Swamp Cypress, Chinese (<i>Glyptostrobos pensilis</i>) 2yr 30-50cm 3L airpot	15.00	13.50	12.00	10.50	9.50	8.50

Key to container sizes: P9 pots are approx 9cm x 9cm x 9cm high. All other pots are numbered according to their size in litres. For example 3L indicates a 3 litre pot.

Rootstock and Graftwood Price List February 2018

Rootstocks (supplied February-April 2018)

Price per unit (€)

10-20 units 30-50 units 60-190 units 200+ units

Apple Rootstocks

M25 (Vigorous) 2yr 9-11mm	2.60	2.20	1.87	1.59
M111 (Vigorous, tolerance of wetter soils) 2yr 9-11mm	2.60	2.20	1.87	1.59
MM106 (Moderately vigorous) 2yr 9-11mm	2.60	2.20	1.87	1.59
M116 (Medium sized, good disease resistance) 2yr 7-9mm	3.20	2.70	2.30	1.95
M26 (Moderately dwarfing) 2yr 9-11mm	2.60	2.20	1.87	1.59
M9 (Dwarfing) 2yr 9-11mm	2.60	2.20	1.87	1.59
M27 (Ultra-dwarfing) 2yr 9-11mm	2.95	2.50	2.13	1.81

Pear Rootstocks

<i>Pyrus communis</i> (Vigorous) 2yr 7-9mm	2.30	1.95	1.66	1.41
<i>Pyrus Kirchsaller</i> (Vigorous, precocious) 2yr 7-9mm	2.95	2.50	2.13	1.81
Pyrodwarf (Moderately vigorous) 2yr 9-11mm	4.85	4.11	3.50	P.O.A.
Swedish Whitebeam (Slightly dwarfing) 2yr	3.13	3.13	2.50	2.00
Rowan (Semi-dwarfing) 2yr	1.95	1.95	1.56	1.20
Quince BA29 (Slightly dwarfing) 2yr 11-13mm	2.95	2.50	2.13	1.81
Quince A (Semi-dwarfing) 2yr 9-11mm	2.60	2.20	1.87	1.59
Quince EMH (Dwarfing, heavy cropper) 2yr 7-9mm	2.95	2.50	2.13	1.81
Quince C (Dwarfing) 2yr 7-9mm	2.60	2.20	1.87	1.59

Plum/Damson Rootstocks

Myrobalen B (Very vigorous)	2.30	1.95	1.66	1.41
Brompton (Vigorous)	2.30	1.95	1.66	1.41
Jaspi (Semi-vigorous, tolerance of wetter soils) 2yr 9-11mm	4.85	4.11	3.50	P.O.A.
St. Julien A (Semi-vigorous) 2yr 9-11mm	2.60	2.20	1.87	1.59
Plumina (Semi-dwarfing, heavy cropper) 2yr 9-11mm	4.85	4.11	3.50	P.O.A.
Pixy (Semi-dwarfing) 2yr 9-11mm	2.95	2.50	2.13	1.81

Cherry Rootstocks

F.12.1 (Very vigorous) 2yr 9-11mm	2.95	2.50	2.13	1.81
Mahaleb (Vigorous) 2yr 9-11mm	2.60	2.20	1.87	1.59
MxM14 (Semi-vigorous, good canker resistance) 2yr 9-11mm	2.60	2.20	1.87	1.59
Colt (Medium sized) 2yr 9-11mm	2.90	2.50	2.13	1.81
Gisela 6 (Semi-dwarfing) 2yr 11-13mm	4.85	4.11	3.50	2.98
Gisela 5 (Dwarfing) 2yr 7-9mm	4.00	3.40	2.89	2.46

Graftwood (supplied February-April 2017)

Apple varieties (including cider): Ardcairn Russet, Ashmeand's Kernel, Bardsey, Beauty of Bath, Bramley's Seedling, Cornish Aromatic, Court of Wick, Court Pendu Plat, Crawley Beauty, Dabinette, D'Arcy Spice, Discovery, Edward VII, Egremont Russet, Gennet Moyle, Gladstone, Golden Pippin, Greensleeves, Grenadier, Harry Masters, Keswick Codlin, Lane's Prince Albert, Lemon Pippin, Morgan's Sweet, Newton Wonder, Orleans Reinette, Reverend W Wilks, Rosemary Russet, St Edmunds Russet, Sunset, Tom Putt
